Summary

Fresher MERN stack developer who builds full-stack web apps with authentication, REST APIs and AI integration. Built and deployed an AI-powered interview prep and resume builder.

Skills

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose, MySQL

Tools: Git, GitHub, Postman, Gemini API

Projects

AI Interview Prep & Resume Builder

[Live Demo](#) | [GitHub](#)

React, Node.js, Express.js, MongoDB, SCSS, JWT, Gemini API

- Built a full-stack MERN app that generates a personalized interview prep report from a candidate's resume, self-description and target job description.
- Report includes a match score out of 100, technical and behavioral interview questions, and a day-wise preparation plan with the topics to focus on for the target role.
- Integrated the Gemini API on the backend to generate reports from user inputs.
- Implemented JWT-based register/login and a saved history of each user's previously generated resumes.
- Added ATS-friendly resume generation with PDF export.

Work Experience

Digital Operations Executive

Nov 2024 – Aug 2026

Cafoli Lifecare

- Managed data entry and product listings across multiple online platforms.
- Handled social media accounts for the company.
- Coordinated with manufacturers on product pricing.
- Provided technical support to office staff.

Education

Bachelor of Computer Applications (BCA)

2026

Uttarakhand Open University | CGPA: 7.15
